Structured Summary

Key Points

- Changing Data Sources in the Age of Machine Learning for Official Statistics
- DOME: Recommendations for supervised machine learning validation in biology
- Learning Curves for Decision Making in Supervised Machine Learning: A Survey
- Active learning for data streams: a survey
- Physics-Inspired Interpretability Of Machine Learning Models
- Machine learning
- What is Machine Learning? Guide, Definition and Examples
- Machine learning
- What is Machine Learning? | IBM
- Machine learning, explained | MIT Sloan

Findings

- Data science has become increasingly essential for the production of official statistics, as it en
- Modern biology frequently relies on machine learning to provide predictions and improve decision p
- Online active learning is a paradigm in machine learning that aims to select the most informative
- The ability to explain decisions made by machine learning models remains one of the most signifi
- Machine learning model developers can take a number of different approaches to training, with the
- Machine learning is the study of algorithms that improve their performance at a task through exper
- Machine learning is the subset of artificial intelligence (AI) focused on algorithms that can “lea
- While machine learning is fueling technology that can help workers or open new possibilities for b

Insights

- Key concept: learning
- Key concept: machine
- Key concept: models
- Key concept: statistical
- Key concept: decision

- Key concept: performance
- Key concept: model
- Key concept: approaches
